Mirror with 304 stainless steel frame 700x500 mm

Ref. GW11 69 04 01

AISI 304 stainless steel, satin

DESCRIPTION

Mirror with 304 stainless steel frame 700x500 mm - Ref.GW11 69 04 01

Mirror with stainless steel frame.
The product is manufactured in a one-piece AISI 304 stainless steel channel frame with 90¼ corners. A float glass mirror, thickness 4 mm, is fixed on the interior of the cannel frame.
The back of the float mirror is protected against humidity.
The main structure includes in its back a bracket to adjust a tilting kit (not included with the product).
The frame has a brushed finish that assures
resistance against corrosion.
The mirror is fixed to the wall by using two wall supports included with the product.
The total measures of the mirror are 700 x 500 x 28 mm

ADVANTAGES
