Folding seat steel white

Ref. GW11 23 03 00

White epoxy

DESCRIPTION

Folding seat steel white - Ref.GW11 23 03 00

The folding shower seat is manufactured in carbon steel structure screwed to the seating surface made of carbon steel slats. Its structure manufactured in carbon steel, 32 mm diameter, 1.5 mm thickness, is fixed to two wall supports manufactured in carbon steel, 3mm thickness.
The structure turns 90¼ to the wall supports in order to be able to leave the seat in upright position.
The assembled unit has a white epoxy
painted finish and its materials assure a correct maintenance and cleaning.
The shower seat is fixed to the wall with 8 screws 8 x70mm and 8 nylon wall plugs 10x50 mm to support static loads of 227 kg (500 lb).
The total measures of the product are 190x493,2x451,4 mm

ADVANTAGES

- Anti-fingerprint treatment
- Easily removable head
- Comfort: large, ergonomic seat
