Stool 450mm height nylon with arms support

Ref. GW11 40 09 00

Nylon

DESCRIPTION

Stool 450mm height nylon with arms support - **Ref.GW11 40 09 00**

Nylon Shower Seat. The product consists of a supporting structure and a seat assembly.
The structure of support made entirely of stainless steel tube AISI 304 of 30 mm diameter covered by
a 5 mm nylon layer (total diameter 35 mm), is formed by 2 legs in inverted U-shaped and 3 bars.
The seated surface made by slats of nylon thermoplastic material, is inserted into the stainless steel tube of the structure.
The assembled assembly has adequate resistance against corrosion and its materials ensure its good maintenance and cleanliness

ADVANTAGES

- Tested to over 200kg Ø 32mm: optimised grip
