# Wall to wall 90¼ grab bar 815x815mm

Ref. GW11 36 09 00

Nylon finished AISI 304 stainless steel

## DESCRIPTION

**Wall to wall 90¼ grab bar 815x815mm** - **Ref.GW11 36 09 00**

Wall-wall bar with four support points.
The bar is made of a 25 mm diameter, 3 mm thick AISI 304 stainless steel tube and finished in 5 mm thick nylon.
The tube is bent at its two ends 90¼.
The assembled set has a finish that gives it adequate resistance to corrosion. The bar is fixed by means of 16 screws and 16 nylon wall plugs supporting in
under these conditions a maximum static and dynamic force of 120 kg

## ADVANTAGES
