Recycling waste bin 60+60L aluminium brushed

Ref. GW06 18 02 01

DESCRIPTION

Recycling waste bin 60+60L aluminium brushed - Ref.GW06 18 02 01

60+60L wastepaper bin manufactured in aluminum.
The product consists of a main body, head and interior waste bins.
The main body totally manufactured in aluminium with antifingerprint coating has a circular form with no hinges. Inside the main body with 2 interior polypropylene waste bins can be found with handles for easy removal.
Total capacity 60L + 60L.
The head is also manufactured in aluminium and has the same anti-fingerprint coating than the main body. When placed, it totally covers the interior liners and fits perfectly with the main
body. In its upper part has 2 separate waste disposals holes where the waste is thrown inside.
The head and interior liners are easily removable to allow the bin emptying and cleaning.
The bin has a total dimension of 849mm height and 508mm de diameter

ADVANTAGES

306 stainless steel: reduces bacterial development

Easy cleaning: solid seat
